**UNIVERSITÉ
DE LORRAINE**

Under the auspices of the HTS Modelling Workgroup
<http://www.htsmodelling.com>

Within the framework of the conference, we offer you the opportunity to meet your partners and customers in the best conditions on the space of exhibition.

HTS 2022 is one of the well-known international workshops in the field of numerical modelling and superconducting applications in Electrical Engineering. A large number of international researchers from universities, specialized institutes and industrial laboratories attend HTS 2022. More than 100 participants are expected from more than 20 countries around the world. This 8th edition will take place in Nancy, France, in the premises of the Faculty of Sciences and Technologies, Université de Lorraine.

This exhibition will allow you to promote your company and to present your latest products to an exceptional forum of acknowledged specialists in the field of numerical modelling, superconductivity, electrical engineering and mechatronics, including young graduates. This scientific event will also give the opportunity to become acquainted with the latest innovations offered by the state-of-the-art in Research & Development activities.

HTS 2022 attendees want to see your solutions! Others may want to join your staff or advance their skills through your programs or specific events. Exhibit at this conference and you will meet them all. Take advantage of this rare opportunity when academia and industry meet at this important event.

Several types of participation and sponsorship in the conference are proposed feel free to contact us for any proposal.

On behalf of the Organizing Committee:
